Re: *Bayonne Barrel & Drum Superfund Site, Newark, New Jersey*

Dear Mr. Cosentino:

This letter concerns your agency's Request for Information, directed to Westinghouse Electric Corporation, in the above-captioned matter. It appears the Request was originally sent to a former Westinghouse facility, returned to you, and subsequently mailed to our headquarter's address. Westinghouse received the Request on November 14, 1995; therefore, our response would be due today. However, we received additional documents yesterday, which may be responsive and must review them before completing our Response. Because of this, Westinghouse is unable to meet the December 14, 1995 deadline. I contacted Mark Seidenberg, USEPA Assistant Regional Counsel, to request an extension for our response until December 21, 1995. Mr. Seidenberg granted that extension and asked that I follow up with you in writing.

Thank you for your cooperation in this matter. Should you have any questions prior to the receipt of Westinghouse's response, please do not hesitate to contact me.

Very truly yours,

Beth A. MacManus
Legal Assistant
